

Name: _____ Student/Lobo ID: _____

Course/Sec: _____ TA Name: _____

Library Research Strategies
Essential Academic Skill Enhancement (EASE) workshop series

Objectives:

Students will learn:

- how to use the library as a resource
- how to use scientific search engines to find scientific peer-reviewed literature
- how to find and read scientific articles

How to get help from the library:

Biology librarian (name and email address) : _____

Ask a Librarian phone number: _____

Find the library online! <http://elibrary.unm.edu>

Another starting point is the biology research guide: <http://libguides.unm.edu/biology>

Good databases for biology: _____

What is your research topic for your annotated bibliography?

Develop a search strategy for your topic based upon the small concepts that make up your overall topic or question. Think carefully about synonyms or alternate search terms.

Concept 1: _____

Concept 2: _____

Concept 3: _____

Practice your search in any of the databases we discussed. Read the abstracts and choose an article.

Write down the complete citation for the article: _____

Which database did you use? _____

Can you find online full text for this article? If so, e-mail yourself a copy. Now you've got the first article for your annotated bibliography!
