GROUP DISCUSSION QUESTIONS

COURSE REFORM

How can we help promote the reform proposal process to faculty members?

How can we help sustain the course reform initiatives over the long term?

What courses should we actively recruit for reform in the future?

PEER LEARNING FACILITATORS

How can we help promote the PLF option to faculty members who may wish to participate?

What topics should we include in future trainings for PLFs and/or instructors who utilize PLFs in their classes?

In what ways should we attempt to grow or strengthen the PLF program?

STEM STUDENT INTEREST GROUP COURSES

What factors do you feel led to low enrollments in the SSIGs?

What departments do you feel we should partner with to develop stronger SSIG models?

What ideas would you suggest for redesigning SSIGs to increase student participation?

DATA-DRIVEN PRIORITIZATION

What suggestions would you make for expanding the institutional impact of STEM Gateway research findings?

What research questions would you suggest we pursue in the future?

What departments or organizations should we collaborate with in designing and implementing future research questions?
